Climate Change - A Challenge in Cooperation

How can we spread knowledge, accelerate innovation and increase cooperation in sustainable technologies?

Truly Sustainable is Open

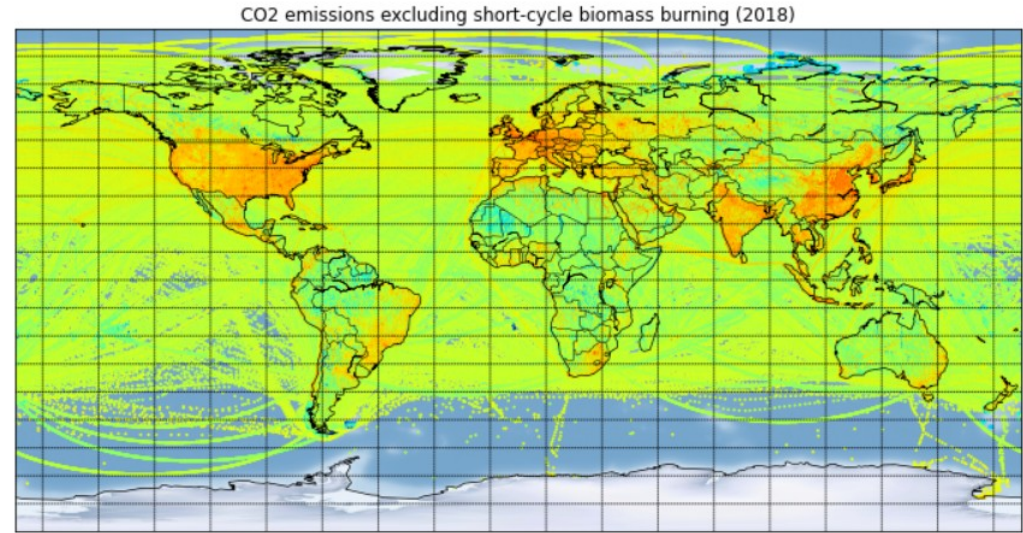

Only by involving technology worldwide the impact of climate change can be reduced in the long term.

Open cooperation and development methods have shown fast acceleration of nearly all knowledge based industries.

Independent and open technology gives us a real chance to reach global climate targets.

A Knowledge Base for Open Sustainable Technology

Open source projects sustaining stable climate, energy supply and vital natural resources

- Provision of the first global platform of all sustainable, active and open technology projects.
- Everyone can contribute, discuss and extend the platform.
- All projects are free, open and sustainable for professional usage.

Roadmap for an Open Knowledge Platform

How can you contribute?

- ♦ Don't use patents, but license smartly
- ♦ Talk about the power of open technology
- ♦ Release and use open technology
- ♦ Donate to open projects
- ♦ Add your knowledge, report and fix bugs, add features, ...
- ♦ Create and label datasets
- ♦ Create communities

Don't be afraid to share knowledge. Learn how to build open business ecosystems.

Our Mission

- ♦ Building and empowering knowledge around sustainable innovation.
- ♦ Providing simple and direct donation distribution to developers.
- ♦ Consulting in open business models and strategies in research and industry.
- ♦ Initiating innovative ideas and concepts.

Thank you for your attention!
We look forward to your
questions and feedback.
